Key Implication

- New customers who buy from the store tend to have a Small Basket Size, so most of them are in Promising
- 290 customers (19%) spend a lot and have started to buy again, with the Potential to move up to the Champions and Loyal Customers Segments
- 268 accounts came back often and spent a lot, moving them into Champions and Loyal Customers, 17.4% of all New members
- 510 New Member accounts (33.2%) are showing signs of leaving. They are in At Risk, Need Attention, Can't Lose Them, About to Sleep, One-Off Big Spender and Hibernating. If they are not encouraged to come back and buy, they are likely never to return

Recommendation

Find out why customers left

In 2011, 1,638 customers (28.0%) were lost, and another 1,329 (22.7%) are at risk of leaving
The business should find out why customers did not come back

Review the Loyalty Program plan

Champions and Loyal Customers have fairly high downgrade rates of 44.5% and 58.3% respectively. The Loyalty Program should be reviewed to keep customers behaving the way we want

Motivate customers to buy more often

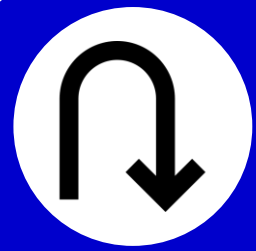

Potential Loyalist and Promising customers still make few repeat purchases. Run promotions to encourage them to buy more often, such as receipt discount coupons and time-limited discounts on the next purchase

Encourage customers to buy more

Loyal (Low Value) and Promising customers have been active recently but have low purchase amounts. Run a Promotion to encourage them to spend more, such as:

purchase-with-purchase offers, Premium gifts when spending reaches a set amount, Cross-selling Promotion, volume discounts

Win customers back

In 2011, 1,638 customers did not come back to buy, losing future revenue opportunities. Run a Marketing Campaign to bring these customers back to us again

For direct marketing, focus mainly on Champions and Loyal Customers who have become Lost or are at risk

Customer Segmentation

M Scoring

Use Quintile to split customers into 5 equal groups, ranked from highest to lowest spend, cutting every 20%

Then use the lowest spend in each group as the threshold for the Monetary Score in 2010 and the following years

F Scoring

F5: Purchased 12 times or more

F4: Purchased 6 – 11 times

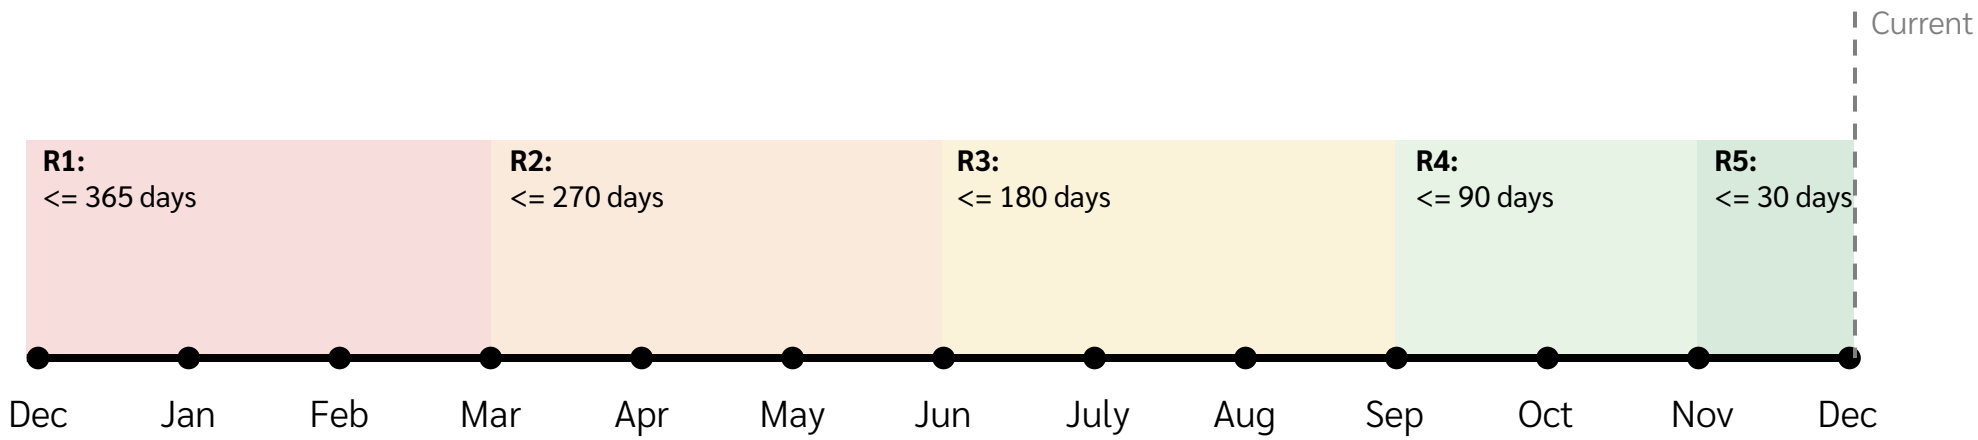

F3: Purchased 4 – 5 times

F2: Purchased 2 – 3 times

F1: Purchased once

The more often a customer comes back to buy, the higher the Frequency score

R Scoring

The more recently a customer bought, the higher the Recency score
